• New Delhi

Summary

Third-year B.Tech student with a passion for web development and problem-solving through Data Structures and Algorithms (DSA). Brings a strong programming foundation, eagerness to master cutting-edge technologies, and a proactive approach to delivering efficient solutions. Actively building dynamic, responsive websites with modern tools and enhancing algorithmic skills for competitive programming and real-world challenges. Eager to contribute to innovative projects, collaborate with like-minded peers, and make an impact in the tech landscape.

Education

Maharaja Agrasen Institute Of Technology, Delhi — New Delhi
Bachelor of Technology - B.Tech, Electronics and Communications Engineering — 10/2023 - 07/2027
| GPA: **7.58** / 10

Holy Mission Secondary School — Patna
Class 12th — 04/2021 - 03/2022

Experience

CODTECH IT SOLUTIONS PRIVATE LIMITED — https://shorturl.at/rtWm6
Full Stack Web Developer Intern — 06/2025 - 07/2025
- Completed **4-week internship** in full stack web development at CODTECH IT Solutions, achieving 100% project completion.
- Deployed **3+** web applications using HTML, CSS, JavaScript, and Node.js, boosting technical skills.
- Teamed up to deliver high-quality projects, achieving **95%** client satisfaction.

Projects

Tasty Trail
https://fooddeliveryreactjs.netlify.app/ — Date period
A responsive food delivery website built with **React.js**, featuring a secure login, interactive menu, real-time cart, and streamlined order process.
- Developed a responsive food delivery website using React.js, achieving **100%** project completion.
- Implemented secure login and authentication features, ensuring data privacy and user trust.
- Built a dynamic cart component with real-time price updates, improving user checkout experience.

Quick Take
https://github.com/sahil15573/QuickTake — 01/2025
Engineered a fully responsive news platform using **React.js**, leveraging a global API to deliver real-time and historic news articles.
- Developed a dynamic, category-wise news website using React.js, leading to a 30% increase in user engagement and content consumption.
- Formulated an API aggregating articles from **150,000+** global sources.
- Established a fully responsive and user-friendly interface.
- Managed efficient state management and API data handling.

Skills

Technical Skills: Data Structures & Algorithms · OOPS · Tailwind CSS · Node.js · Express.js · MongoDB

Languages: C/C++ · JavaScript

Framework: React.js

Key Achievements

TCS Career Edge - Young Professional
Gained foundational knowledge in IT fundamentals and an introduction to AI.

Accenture-Data Analytics
Understanding, data cleaning & modeling, and data visualization.
